

SYSTEMICS PAB
Network Quality Experts

CERTIFICATE

Systemics-PAB Sp. z o.o.

Wolodyjowskiego 46B, 02-724 Warsaw, Poland

hereby certifies that

MoldTelecom S.A.

Bd. Stefan cel Mare si Sfant 10, MD-2001 Chisinau,
Republic of Moldova

received the title for

MOLDAVIAN NETWORK WITH HIGHEST SCORE FOR QUALITY OF VOICE SERVICES IN THE TEST

This certificate is based on the results of measurement campaign which was carried out by Systemics-PAB in March 2018. The aim of the campaign was to verify results of optimization actions performed in Moldtelecom (Unite) network. The measurement campaign assessed the quality of experience of mobile voice services as well as UMTS coverage for all operators in Moldova: Orange Moldova S.A. (Orange), Moldcell S.A. (Moldcell) and Moldtelecom S.A. (Unite). Systemics-PAB performed the benchmarking measurements throughout Moldova on a representative area sample. The measurements were carried out using SwissQual Diversity system equipped with Sony Xperia XZ terminals. For the coverage assessment Rohde and Schwarz radio scanners were used. Voice tests were done in mobile to mobile mode.

The results of the measurements were assessed based on scoring methodology drafted as a result of ETSI STQm workgroup TR 103 559 restricted to voice service area only.

Moldtelecom S.A. can therefore be certified as the operator with the Highest Score for Quality of Voice Services and having the widest UMTS coverage in the test.

Certificate Date: 12.04.2018
